The main focus of holding such a tournament is to provide a platform for students to showcase their football tactics rather than giving them a competition feel. Objectives of the tournament also were to provide an opportunity for students to take part in football matches, to assist them display their skills in a fun environment, to teach students to work as a team and to strengthen sportsmanship.

Two Finalists (2.1 and 3.2 Batches) with Faculty Members

Since we believe that our students should develop their minds while installing positive values like teamwork and sportsmanship, we try to motivate students to develop their skills rather than focusing on winning and losing. However, we acknowledge student participation and achievements by awarding them with medals, different individual awards and Champion, Runners Up Trophies.
